

## Preventive Medical Examination

You can make an important contribution to the preservation and development of your health with the extended screening of GENERALI insurance.

Annual screening increases the safety of early detection of diseases. This is why TRINICUM compiled a team of experts from different disciplines.

Thanks to the diverse approaches of our specialists and therapists, we can examine you in a holistic manner and take preventive precautions.

On request we will gladly take care of the enquiry with your insurance.

Mo-Thu from 9:00-6:00  
Fridays from 9:00-3:00
